

one source one solution. Advanced Interconnect Technology 3021 Cornwallis Road, Durham, NC 27713

Responsible Minerals Sourcing Policy

Micross Advanced Interconnect Technology (MAIT) is committed to sourcing responsibly and considers mining activities that fuel conflict as unacceptable. MAIT's efforts related to conflict minerals are aligned to the work of the Electronic Industry Citizenship Coalition® (EICC®). The EICC's work includes the Conflict-Free Smelter Program and the Conflict Minerals Reporting Template (CMRT).

MAIT requires that all its suppliers purchase gold, tin, tungsten and tantalum from conflict free certified smelters and submit the CMRT template.

The information contained in the CMRT template constitutes a critical part of MAIT's due diligence program.

Refer to <https://www.responsiblemineralsinitiative.org> for more information.
